

MillAquia Pools

At MillAquia we will either work with your architect or with you to ensure the finished product meets your expectations

Our pools are individually designed to reflect the dreams and ideas of our clients – they can be lavish and luxurious, with a vanishing edge, incorporating water features, fibre optic lighting and mosaic art, or they can more simple and blended into the surrounding landscape as if they are a part of it.

Our objective

through extensive discussions with you is that we tailor your pool to meet your needs. We can introduce you to the latest ideas, materials and technology.

We look closely

at energy conservation and environmental issues which can be of genuine benefit to you, to enable you to make the best decisions which are specifically tailored to your needs and vision of your dream pool.

Pool Enclosures

An outdoor pool to lie beside in the sun, or protect you and your pool from the less pleasant elements of nature, when you don't want them interfering.

- ❖ Stunning designs to complement your garden.
- ❖ Total safety with locking facilities to keep children out.
- ❖ Luxury easy glide opening.
- ❖ Save on pool heating costs, time and maintenance.
- ❖ If leaves and debris are your problem – this is your answer!

The Alpha Spirit

Swim endlessly in the pool that fits in the space of a hot tub

The Alpha Spirit is the answer for great exercise through swimming, without the need for tiresome lengths and constant turns. The unique features of the Alpha Spirit's balanced current make swimming easy so you control how much swimming you do and at the pace you choose.

Because these pools can fit into much smaller buildings than conventional indoor pools, huge costs can be saved on heating so your carbon footprint won't go sky high.

You can test this pool in our showroom in total privacy.

Caldera Spas

Caldera Spas offer one of the best built in sound and lighting options available for spas.

The Aqua Melodies and Aqua Flow colour therapy lighting make Caldera Spas one of the best for ambient mood in your garden.

Established in 1976, they have remained one of the most trusted spa manufacturers in the world, bringing you quality you can depend on.

Caldera also offer wrist jet hydrotherapy, great for sufferers of RSI and carpal tunnel syndrome.

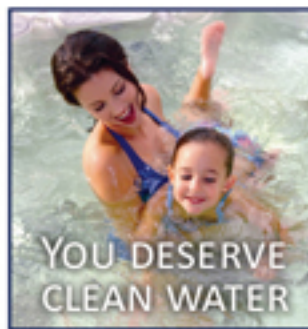

Marquis Spas

The unique Marquis Smart Clean system means it's easy for you to keep your spa water crystal clear.

The patented Tri-zone hydrotherapy brings you first class highly beneficial massage, reputed to be the best on the market.

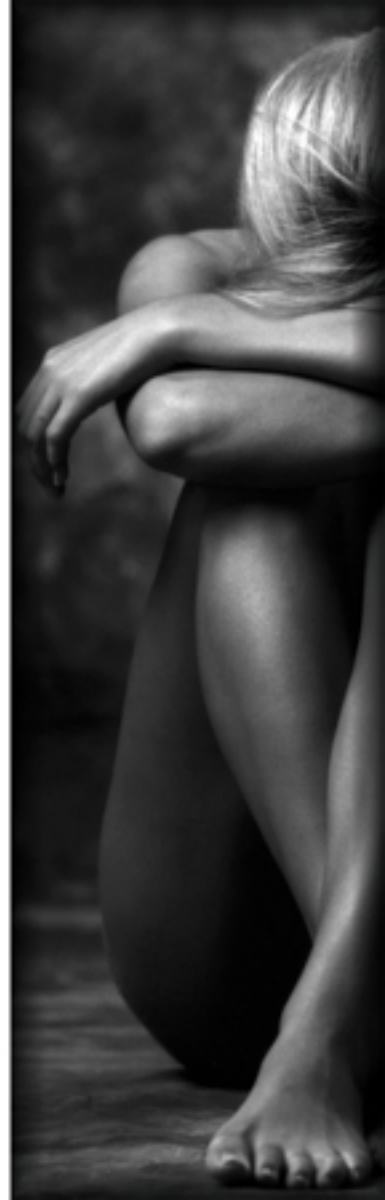

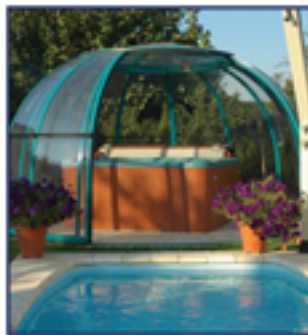

Marquis offer creative and innovative designs, combined with low cost maintenance and great energy efficiency which will provide you the ultimate soaking experience.

Spa Domes

The easy all-weather enclosure for your spa, so you will still want to use it when it's raining!

The two halves glide effortlessly on a purpose made track, allowing movement in both directions. The Spa Dome offers full protection from strong winds, rain, debris carried by the wind and from harmful UV rays.

SAUNA & STEAM

Traditional

Reap the dividends of good health and vitality year after year by investing in a sauna.

A sauna is more than just a bathing therapy for your home, it's also a place to relax with family and friends and your own personal refuge from the stress and worries of the world.

Whether for domestic or commercial use, our showroom has a varied and interesting range of saunas to suit all requirements and budgets. We also stock a full range of sauna accessories.

Infrared Saunas

Infrared saunas are different from traditional saunas in that you don't experience the very high, dry temperatures in them and so many people find them more comfortable to use.

An infrared treatment will activate the blood circulation by penetrating deep into the skin, reducing muscle pain. Infrared is therefore widely used as a medical therapy to alleviate the effects of rheumatism, tense muscles and similar aches and pains.

Use of infrared saunas also burns up a significant number of calories, making it a pleasant and relaxing way to help you lose weight.

Treatment Tables & Health Recliners

Deep-seated heat from ancient marble, found only in Austria

A completely new type of wellness experience that promotes health, due to the minerals and micro elements it contains. Our health recliners and treatment tables coax the body into a harmonious state of oscillation after just one hour of use.

Increasing the efficacy of massage, the health recliners and treatment tables are perfect for oil and wet applications.

Snow Rooms

A Snow Room is a sure way to increase your client base through the sheer exhilaration felt after being in the delightful Snow Room. Used in conjunction with sauna, the cool off period is far more gentle on the system and the benefits of longer cool down benefit the skin tone and suppleness to a much higher degree than using a cold shower.

Why not set your establishment apart by offering your guests the chance to cool down in this unique and pleasant way, creating a "wow factor" that will bring your clients back time and time again.

SeaClimate Ionised Oxygen

Take years off your age – add years to your health!

Ionised Oxygen increases faculty of thought, increases physical performance and activates the body's defences.

Concentrated with negatives ions, SeaClimate cleans the airways, refreshes the skin with anti-aging properties and encourages the metabolism. This stimulating climate is produced with the aid of ionised oxygen and salt from the Dead Sea. You inhale a fine spray from which the finest particles reach deep into the lungs and skin.

Sufferers of skin complaints such as Eczema and Psoriasis report vast improvement from using SeaClimate.

Ionised Oxygen
increases faculty

increases physical
performance and
activates the
body's defences.

at **last**

another option besides the gym

Your own total body workout at home!
Workout when you want to, as much as you want to and save time, travel and membership costs.

Power Plate

Loved by the A-listers and what Madonna used to get in shape for her last tour. Power-Plate is also used by Manchester United football team.

Fifteen minutes on this revolutionary new vibrating exercise machine is equivalent to an hour's traditional workout in the gym for your muscles.

Firm up and tone quickly in your own home in your own time.

Life Fitness

Synonymous with long-term durability and the most popular brand of commercial quality fitness equipment worldwide.

Used by world champion athletes, Olympic medallists and military personnel, with the new models developed specifically for the domestic market, you too can enjoy the benefits of this premium brand through MillAquia - the South West's only Life Fitness outlet.

Water Rower

Unlike conventional rowing machines, this works by water tension. The ergo-dynamic design will look great in your workout area and you can benefit from using this modern rowing machine whenever you want to.

Why not try our equipment for yourself?
